NO. 90

## MISCELLANEOUS.

### New Life

is given by using BROWN'S Iron Bitters. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS cures perfect health through the changing seasons; it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and insist on having it. Don't be imposed on with something recommended as "just as good." The genuine is made only by the Brown Chemical Co. Baltimore, Md.

## PROFESSIONAL.

A. DAWSON, M. D.,

PHYSICIAN AND SURGEON

Office in Sunderland's building, rooms 3 and 4; residence on West street, between Commercial and Second streets, Reno.

PHYSICIAN AND SURGEON.

Office on Second street, next to Webster's, new office Reno, Nevada.

## COAST ITEMS.

In the test liquor license case at Portland the jury decided in favor of the city.

Red Bluff is boasting of its progress and prosperity. A new hurdy-gurdy house has recently been started in the town.

J. B. Lewis, first mate of the ship Titan, lying at Portland, fell down a hatchway, 25 feet, sustaining fatal injuries.

The Supervisors at Woodland have passed an ordinance prohibiting the maintenance of liquor saloons within 200 feet of school lots.

The five defendants in the Avila killing at San Gabriel, have been held in the Los Angeles Superior Court in \$2,000 each. The bail was given.

Hurtado and Raper, murderers, were sentenced, in the Sacramento Superior Court, on Thursday, to be hanged August 30th. Both prisoners made addresses.

A. J. Anderson, arrested for burglary in Portland, Thursday, had stolen in his blankets 98 watches, several opera glasses, and a number of articles of jewelry.

Joshua Porter, a clerk of General Crook's during the late Indian campaign, attempted to steal 50,000 pounds of barley left at the supply station at Silver Creek. He is in jail.

"Black Bart," the much-sought stage robber, was seen in Oakland, Cal., last week, and Wells, Fargo & Co.'s detectives were telegraphed for, but got there too late to capture the man.

The Olympia, W. T., Courier of a recent date says: "There are now not less than 12,000 Chinamen in British Columbia, and the number is increasing fully 100 per month, by the arrival of ship-loads in Victoria."

The tributers working in the Baltimore mine, American Flat, have long been making more than \$4 per day, and now are making nearly \$10 per day. They are in a good streak of luck, and the indications now are that they are liable soon to find a regular bonanza.

A man answering the description of Ignacio Romero, wanted in one of the upper counties, was killed while resisting an officer, near Pomona, Wednesday evening. He refused to surrender, and closed with the officer, and in the rough and tumble which ensued the latter's pistol was discharged, killing the prisoner.

A large grizzly bear that has been roaming in the hills near the Red Bluff road below the Buttes, known as "Club Foot," was caught last Saturday by a gentleman by the name of Morgan. The bruin is an old-timer. He was caught several years ago in a bear-trap, but succeeded in making his escape.

## In the Stables.

Col. J. D. Ferguson, Secretary of the Maryland Jockey Club; ex-Governor Oden Bowie, President of the same; Mr. Calvin M. Priest of the New York Club Stables; Mr. H. Arms of the Toledo and Chicago Stables use the great pain-cure, St. Jacobs Oil, and endorse it.

## Advice to Consumptives.

On the appearance of the first symptoms—as general debility, loss of appetite, pallor, chilly sensations, followed by night-sweats and cough—prompt measures for relief should be taken. Consumption is a serious disease of the lungs, therefore use the great anti-scrophulous, or blood-purifier and strength restorer—Dr. Pierce's "Golden Medical Discovery." Superior to cod liver oil as a nutritive, and unsurpassed as a pectoral. For weak lungs, spitting of blood, and kindred affections it has no equal. Sold by druggists the world over. For Dr. Pierce's pamphlet on consumption, send two stamps to "World's Dispensary-Medical Association, Buffalo, N. Y."

## RAILROAD TRAINS.

For cheap Drugs, Toilet Articles, Patent Medicines, Perfumery, etc., call at John F. Myers' Drug Store, Virginia street, next to Barnard's. jelsm1

## MISCELLANEOUS.

### SLIGHT ODDS.

A Little Story with a Large Moral

—One Man who Knew his Own Business.

"No, my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the counter, "No, my dear, we haven't any red flannel, but we have some first-rate New Orleans molasses." Softly hinting that she didn't think that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Have you RENSON'S CAPCINE PLASTER?" asked a gentleman of a certain rascal whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the rheumatism, and the Renson Plaster seems to go to the spot almost as soon as it is applied." "I can't say," replied the druggist, "but we have lots of plasters just as good. There is Allcock's, the Capcine and others—won't one of them do as well?"

"My dear sir," replied the gentleman, with a slight show of temper, "I say nothing against these articles, but I am a business man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that some time ago, for another disease, of which the Capcine has since cured me, I tried all these plastermen, with no appreciable benefit. They are inefficient, every one of them, the cheapest set of the proprietors of some of them being this: They make plasters with similar sounding names to deceive the unwary into believing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day."

## TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, AND MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their distance: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Excitation of food, Irritability of temper, Low spirits, A feeling of having neglected one's duty, Disinclination to enter the house, Drowsiness before the eyes, highly colored urine, CONSTIPATION and demand for a remedy that will act directly on the liver. As a liver medicine, TUTT'S PILLS have no equal. Their action on the kidneys and skin is also prompt, removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, sugar skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect

ANTIDOTE TO MALARIA.

TUTT'S HAIR DYE.  
GRAY HAIR OR WHISKERS changed instantly to a Glossy Black by a single application of this Dye. Sold by Druggists, or by express on receipt of price. Office, 14 Murray Street, New York. Send for sample of Dye, free of charge.

## EDITORIAL NOTES

The Eureka Leader has entered upon its eleventh volume. It is as newsworthy as ever.

General Howard has almost raised an insurrection in army headquarters, by sending around a circular forbidding all work in the headquarters on the Sabbath, and prohibiting the use of any of the rooms for social converse between the staff. The General evidently believes that a reform is necessary.

The Austin Democrat, in the publication of its obituary, kindly asks the people of Austin to give the Revell a "heartily support." This was certainly generous from a political opponent. While Mr. Booth of the Revell feels sad over the demise of his rival, he does not feel bad enough to cry. He proposes to make this paper, and is making it worthy of the cordial support of every man and woman in Lander county.

Roscoe Conkling is said to be growing old rapidly, and his pointed Venetian beard is full of gray. He says he is out of politics and too poor to get in again; but he discussed certain measures of the administration with a good deal of his old caustic manner. The San Francisco Exchange says: He is a very keen observer of events, and is observing the course of his old friend in the White House with a good deal of interest, not entirely unmingled with a gentle astonishment.

## WESTERN TELEGRAMS.

(PRESS DISPATCHES TO THE GAZETTE.)

**Answer Filed—Murder Case Appealed—A Hopeless Case of Leprosy.**

**SAN FRANCISCO, July 14.**  
 An answer has been filed in the case of D. W. Bouldin et al, to recover possession of Mare Island from the United States. The answer claims that the Court ought not to take cognizance of the action as plaintiffs have not been possessed of the premises within five years before the commencement of the suit, nor had they presented their claim within the time limited by the Act of Congress. The claim, therefore, is barred.

The attorneys of Joshua A. Hamblin, convicted murderer, will appeal, availing themselves of the point that the conviction was illegal, being procured on information and not on indictment, as required by the United States Constitution.

A Swedish sailor, formerly in China and the East Indies, was brought to this city yesterday from Mexico, suffering from genuine leprosy. This is the second case on record here of a white man being attacked by this dreaded disease. The first case proved fatal, the victim's body decaying and falling off in bits until death ensued. The Swede was examined by Dr. Meares, Health officer of San Francisco, and he will go the same way, dying by degrees and rotting by inches.

—The Marquis of Lansdowne will sail for Canada in October, to assume the duties of Governor-General.

—Judge Thomas of the Civil Service Commission will be in San Francisco August 18, to superintend the local examinations there.

—In consequence of the prevalence of the yellow fever and smallpox at New Orleans and Jamaica, the health authorities talk of establishing quarantine against both places.

—Another cyclone passed over a part of the line of the Kansas City railroad in Iowa, yesterday, doing great damage to buildings and crops. Hailstones fell as large as hen's eggs.

—The public prosecution of the Hungarian Jews, charged with the murder of a Christian girl will be withdrawn, and the Government will prosecute the concoctors of the case with the utmost severity.

—The President yesterday appointed Byron Andrews of Washington, William H. Bridgeman of Connecticut and Dudley F. Phelps of New York City as commissioners to examine and report upon 25 miles of the Northern Pacific railroad, on the Missouri division, in Montana.

## EASTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

## Important Changes.

**ST. PAUL, July 14.**  
 Several important changes are to be made in the operative department of the Northern Pacific as soon as it is completed, in September next. At present the general manager, Hampt, has charge of the eastern division only, but when the existing gap between Helena and Missoula has been constructed he is to be given the management of the whole road, from St. Paul to Portland. J. M. Buckley, located at New Tacoma, W. T., who at present has charge of the western division, is to continue as assistant general manager of that division, and J. T. O'Dell, superintendent of transportation, of the eastern division. As regards the office of superintendency of transportation, it is expected that office will be abandoned, or at least merged into some other; probably that of the new general assistant manager. It is also rumored that several other important changes are to be made, the most noted of which is in connection with the general passenger and ticket department. This office, it is said, will be decided with G. K. Barnes, who is now general passenger agent, and be made general ticket agent, while a prominent eastern man is to be made general passenger agent.

## Mrs. Langtry in Chicago.

**CHICAGO, July 14.**  
 Langtry arrived at 10:30 this morning, in her special car, from Long Branch. Gebhart sat in the smoking room at the end of the car, smoking. A correspondent of the Inter-Ocean was soon admitted to the charming little room. Mrs. Langtry came in and received her visitor cordially. She said: "I am more glad than ever to make new friends in the United States, as I leave the country on the 14th inst., to be gone until October 15. I have no hesitation in saying my visit in America has brought me \$100,000, and my experience with people I have met has been extremely agreeable. I have made friends who have been courteous and kind; my audiences have been appreciative, and my treatment from the gentlemen of the press has been, with few exceptions, all I could have wished or expected. When I return from England I will open my season in San Francisco."

## Internal Revenue Reductions.

**WASHINGTON, July 14.**  
 To a friend, General Raum, ex-Commissioner of Internal Revenue, in speaking of the effort looking to the abolition of the stamps tax, is quoted as having said a day or two ago, that the revenue to be derived from whiskey and beer, would probably amount to \$100,000,000, and that a repeal of all other internal revenue tax laws can be made with safety. It is proposed by certain Republican members of Congress to introduce, at the next session, a bill abolishing all internal revenue taxes, except those upon malt and spirituous liquors.

## Distinguished Tourists.

**OMAHA, July 14.**  
 The following party occupying a private car, left here yesterday, intending to stop at Salt Lake two days: Collingwood Schriever, Chief Engineer of the Canadian Railway; Mrs. Schriever, the Misses Schriever, Sir Alexander Campbell, Minister of Justice of Canada; Miss Campbell, Messrs. Place, Pottinger, Price, Jones, Fletcher and Lawless, all from Canada. The party are going to British Columbia on business connected with the Canadian Pacific Railway.

## Murderers at Bay.

**DES MOINES, July 13.**  
 A special from Marness Station on Rock Island, in Cass county, says: The Clingan murderers were surrounded in a grove eight miles north of that town this afternoon. In an effort made to dislodge them from their hiding place a man, named Frank Hallock, was fatally shot. Great excitement prevails throughout this State, and 20 men have surrounded the grove where the murderers are concealed. There is no doubt but they will be captured and lynched.

## Killed by the Cars.

**ROCHESTER, N. Y., July 14.**  
 Mrs. Phelps, an aged lady; Mrs. Phelps, Jr., and her 2-year-old daughter, were killed at Roanoke this morning while crossing the Lackawanna railroad track. The horses were also killed.

## An Electrical Disturbance.

**NEW YORK, July 14.**  
 There is an unusual disturbance on the telegraph wires between here and the west this morning. A heavy rain storm has raged in the vicinity of Pittsburgh for the last four hours.

The French national festival day, commemorating the capture and destruction of the battle, was celebrated in Paris and the larger of the eastern cities to-day.

—Cardinal Howard has left Rome for England, to ascertain the views of the English Government in regard to founding diplomatic relations between England and the Vatican.

## FOREIGN TELEGRAPH.

(PRESS DISPATCHES TO THE GAZETTE.)

## Frightened by Cholera.

**ALEXANDRIA, July 14.**  
 Thirty-eight deaths from cholera occurred at Damietta yesterday, 57 at Mensurah and 15 at Samanoud. Since the outbreak of the cholera at Mansurah 11 men and officers attached to the troop forming the cordon around that place have died from the disease. The colonel and his staff took alarm at these deaths and fled. The colonel has been arrested and replaced by the British officers.

## De Lesseps's Suez Scheme Not Likely to be Successful.

**LONDON, July 14.**  
 The Standard says the Government are sounding De Lesseps as to whether any modification of the agreement in regard to the Suez Canal is possible. At least 30 Liberals in the House of Commons will oppose the scheme and several others will abstain from voting on it. The Irish members are opposed to it.

## The Hungarian Murder Trial.

**LONDON, July 14.**  
 In the trial at Nyregheza, Hungary, of the Jews charged with murdering Esther Salomey, Prof. Reki, an expert, testified that it was impossible for blood to spurt from the wound as the witness, Mauritz Schari, alleges he saw it spurt. This evidence has caused a great sensation.

## An American Horse in Denmark.

**COPENHAGEN, July 14.**  
 At the Hermitage races, yesterday, the American horse, Idea, formerly M. H. Sanford's, was first in the sweepstakes for gentlemen riders, winning 1,000 crowns.

## In Time of Peace Prepare for War.

**BERLIN, July 14.**  
 General Bronsart von Schellenderf, Minister of War, has been inspecting the fortresses on the eastern frontier, and has drawn up a report advocating the extension of strategic railways in East Prussia on a large scale.

## Austrians Alarmed.

**VIENNA, July 14.**  
 Considerable alarm was caused here by the reports that the cholera had appeared among the Austrian troops. The reports originated from the outbreak of new cases of dysentery.

## TELEGRAPHIC BRIEVITIES.

—Several Jews have recently been tortured and murdered in Russia.  
 —The yellow fever at Callao, and Lima is causing serious mortality.  
 —Governor Hale of Wyoming, who has been seriously ill, is fast convalescing.  
 —Fighting continues in Zulusland. It is reported that Cetewayo has been defeated.  
 —The deadlock on the election of a United States Senator in New Hampshire continues.

—The dispatch of yesterday, of a maniac murdering his whole family, is believed to be bogus.  
 —The Massachusetts Legislature has passed a bill fixing the State tax at \$1,500,000 instead of \$2,000,000, the bill vetoed by the Governor.

—There is great satisfaction in Peru, by the withdrawal of the Chilians. Many evacuated towns are filling up with the former inhabitants.  
 —The lightning struck a school-house at Underhill, Vermont, yesterday, and all the children were more or less injured, some quite severely.

—The Australian Imperial Government desire the British Queen to establish a protectorate over New Guinea and other Pacific islands, offering to share the expense.  
 —A leading Paris journal justifies the action of the French admiral at Tientsin, and says that France must be careful not to make all her enemies against her.

—The steamer Daphne, which was sunk while being launched at Glasgow, Scotland, has been partially raised, and the dead bodies will be removed to-day.

—The residence of G. W. Nutt, at Nashua, New Hampshire, was struck by lightning yesterday, killing a man named Marsh and severely injuring Mrs. Nutt and child.

## NOTICE TO CITIZENS.

I hereby notify all persons not to use any water for irrigating purposes from our pipes between the hours of 12 m. and 6 p. m. This order will be strictly enforced.

A. EVANS,

President Reno Water Co.

## NEW TO-DAY.

## Notice to the Public.

NOTICE IS HEREBY GIVEN THAT all moneys due me for bills at the Lake House, Reno, Nevada, are payable to A. J. Clark, at his store on Sierra street, the same having been transferred to him on July 9th, 1883.

NOTICE is hereby given that all moneys due H. L. W. Knox for bills contracted at the Lake House, Reno, Nevada, are payable to me at my store on Sierra street, in Reno, Nevada, and all persons indebted will please call and settle the same as early as convenient.

**ROYAL BAKING POWDER**  
 Absolutely Pure.

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low cost, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER COMPANY, 44 Wall Street, New York.

FIFTY CENTS PER WEEK  
 All Classes of Legitimate Advertisements Not Exceeding Six Lines Inserted in this Column for Fifty Cents Per Week.

**News Depot.**

## JOTTINGS.

Ask C. W. Perry if he is fond of cucumbers. He is better now.

Henry Ruhe sent around a bottle of Glen Alpine water and it was good.

Amber cigar holders at Nasby's. Thermometer, 7, 9, 11, 1, 3, -74, 80, 86, 87, 85.

Eureka has a most brutal case of wife beating. Set up one of the late Frank Stuart's posts.

Thirty-seven head of fat beavers, shipped by Geo. D. Bliss at Winnemucca passed here yesterday.

Three car-loads of a good class of immigrants went west this morning. California farmers ought to soon be able to supply the want of harvest help.

Rhubarb Cordial is the most pleasant and effective of all remedies in cases of diarrhea, colic, cramps, summer complaint, etc. It is to be had only at R. E. Queen's drug store.

The reason that Reno people are the best dressed of any in the State, is that the immense business being done by the White House, enables Abram Brothers to sell all kinds of clothing at one-half the former prices.

T. K. Hymers had a conundrum to solve this morning. There was a case of crockery halves, large as the stage to go to Lake City, and it wouldn't go in through any of the openings. He had to take out the whole rear end of the stage.

The store of A. Lindley & Co. on Virginia street is the best appointed and best filled of any grocery store in the State. It is virtually a wholesale house, for enough goods are shipped from it daily to stock a good sized grocery.

Old lady to druggist: "I want a box of canine pills." Druggist: "What's the matter with the dog?" Old lady (indignantly): "I want you to know, sir, that my husband is a gentleman." Sam puts up some quinine pills in profound silence.

That St. Louis beer to be found at the Wine House on Commercial Row, is surprisingly invigorating and cooling; but you must not try to drink over two or three bottles at a time, for you might be compelled to invent some transparent excuse for being out late.

J. K. Everett, the successful groceryman of Reno, is justly entitled to his business popularity. He has been so long in the business, and has paid such attention to the wants of this people, that he has never any dead stock on hand; everything in his store being just what the people require.

The attention of the farmers throughout Washoe and adjoining counties is directed to the unsurpassed stock of stoves, tinware, crockery and crockery, carried by Knowles & Balbridge, on Commercial Row. They seem to know exactly what is needed, and always have it on hand.

Many a sickly woman, whose sad experience had demonstrated alike the failure of concocted doctors and poisonous drugs, has obtained a new lease of life by buying her dry goods of F. Levy & Bro. They have the cream of the trade, and deserve it, too, for their stock is always complete, and prices exceedingly low.

**Tired of Confinement.**  
J. A. Davis, the man arrested here a few days ago for violating the optum law, and who was sent up for 120 days as a penalty for "hitting the pipe," jumped the jail-yard fence late Thursday afternoon and lit out for Virginia. Sheriff Emmett drove to the Comstock to post the officers, but on his way home Friday morning he met Davis slowly wending his way up the Geiger Grade. The Sheriff scooped him up and returned him to his dungeon cell, after putting a pair of cross-chains on his ankles. Davis is the individual who made a reputation at Truckee a few days prior to his arrest. He is a bad pill and is better off shut up.

**A Troublesome Rival of San Francisco.**

The growth of business at the port of Wilmington, says the Los Angeles Herald, is simply something marvelous. Last month 8,000,000 feet of lumber and 11,000 tons of coal were handled there. The total record of the port for the month of June footed up 24,000 tons. In addition to the regular steamer business, and to the periodical trips of the five or six large vessels which ply regularly between Wilmington and the up country, on day round trips, 80 deep sea ships from Liverpool and New South Wales are due by the 1st of November.

**Fire in the Mountains.**

There is what looks to be from Reno, a destructive fire in the timber above Verdi. Campers and hunters cannot be too careful of fire; thousands of dollars worth of valuable wood and timber being destroyed by the carelessness of somebody, every season.

**Recuperating.**

Rev. Kelsey and teacher Bristow of Wadsworth were here last night. They are on a health-seeking trip to the Sierras, traveling by private conveyance. The vicinity of Truckee is their objective point.

## ALL IN ORDER.

The Nevada State Mill Running Nicely.

EVERY PIECE OF MACHINERY GOING AT ONCE

The Latest Improvements in Bread Making.

The foundations for the Nevada State Mill were laid in August, 1881, and since that time its proprietor, S. C. Fogus, has been engaged almost exclusively in the one business of ascertaining what new machinery had been given to the world for each particular operation through which wheat has to go from the time the grain enters the mill until the flour comes out. Mr. Fogus is the son of a miller, who brought all his boys up to the business, and he thus acquired all the points in the flour-maker's art. His father owned a mill in Virginia, a few miles from Richmond, on James river, near the famous Gallico and Haxall mills, that have a reputation the world over. By patient research, and being tied to no system, Mr. Fogus has become satisfied that no one set of machinery of the many kinds hitherto combined was the most effective, so he has selected here a bit and there a bit, and put them together after his own ideas. Where he could get nothing to suit him, he has had it made from his own plans. For power he has a Lind wheel 48 inches in diameter, under a 10-foot head, giving it immense power. The wheat goes first into a shaker, of Mr. Fogus' designing, that was built in Reno by C. W. Ward; thence it is elevated to the third story and drops into a Stevens' combined smutter grader and separator, a most ingenious machine, made in Burlington, Iowa. A Richardson polisher from Detroit, Michigan, then rubs each particular grain as bright as a dude's boot, the fuzz going to a dust bin in the cellar and the wheat to the first reducer, a steel roller six inches in diameter and nine inches long, running rapidly in an iron box, which cracks the grain and makes three separations, sending the seam dirt to the dust bin, the middlings to the purifier and the pure kernel to the rolls. These rolls are a novelty in Nevada and are

A COMPLETE REVOLUTION in the old way of milling. They were made in Columbus, Ohio. Four sets are necessary to perfect the operation. The first has been described. After the wheat is cracked by it a Jonathan Mills patent mill takes it and makes the second reduction, after which the flour and bran are separated by a reel, and the former goes through a system of three bolts and one chest, from which the flour goes to a purifier and then into the most important set of rolls 9 by 12, revolving in opposite directions at high rates of speed and at different velocities. It is these rolls that give the high quality to the flour. It goes then into another system of two bolts, and from there it goes into the market. The other two rolls are used to save what flour material has wandered off with the bran and middlings. The middlings are now taken up and put through roll No. 8—a duplicate of No. 2, after which it is bolted and the flour packed. The bran comes from the flour in the first bolt, and goes to a set of corrugated steel rolls 9 by 12, which take out every particle of flour which may be left upon the bran, and sends it to another bolt. These bolts are entirely new, and Mr. Fogus has applied for a patent on them. Instead of fastening the silk bolting cloth on the outside of the circular frame, or wheel, he nails it to the inside, so that there is a smooth surface for the flour to slide over, instead of having it tumbling about over the wooden frame pieces. They are four and five feet in diameter instead of 30 inches; as all the old ones are. The roller flour promises to become the standard, and is considered by Mr. Fogus to be no longer an experiment, but to be much nearer perfection than the old way of grinding it between heavy stones. The rollers simply crush instead of grinding, avoiding heat and uneven grinding making the flour purer and whiter. The mill is now running, and a GAZETTE reporter saw the wheat go in and flour come out. He also partook of some bread baked by Mrs. Fogus, which showed that she not only had good materials, but that she is as good a baker as her husband is a miller.

**Step Ahead.**  
The Pullman cars are now provided with a step, that enables a lady to climb into the coach without endangering her life. She formerly had to reach about four feet to make the platform. Long-legged females could make it easily enough, but the little duck-legged maiden had to straddle a little too far. The porters now place a box on the depot platform, which divides the distance. The improvement is a good one.

## PERSONALS.

Miss Eva Barnes went to Carson today on a visit.

Ex-Sheriff Hanks, of Virginia, is in town today.

O. D. Weller, the Sheriff of Alturas county, is in town.

Uncle Jake McKissick came in from the north on business yesterday.

A. W. Sisson of the firm of Sisson, Crocker & Co. passed east this morning.

Nathan Levy, one of Winnemucca's oldest and best business men, went east this morning.

Mrs. A. Alt and her sister, Miss Ella Lambert, left this morning for a six weeks visit to San Francisco.

Miss Stella Gates of Carson and Miss Wilsey of California were passengers by the west-bound train today.

Bob Montgomery, the well-known Sacramento horse man, was a passenger on the east-bound train today.

Newt Evans went east this morning, to look after the stock and hay interests of the Evans Brothers, near Iron Point.

W. T. Preddy of the V. & T. came down from Carson this morning to manage this end of the Knights of Pythias excursion.

A. H. Griswold, a former resident of Elko, went south this morning to Inyo county, California, where he is interested in mines.

United States Marshall Corbett came down from Virginia this morning. Mr. C. seems to have entirely recovered from his troublesome rheumatism.

Commissioner Webber's sudden death from the bursting of a blood vessel.

County Commissioner William Webber of Virginia died last evening at 7:30 o'clock from the bursting of a blood vessel in the region of the heart.

The Enterprise contains the following: Last evening, while at his residence, he went out to split up some kindling wood. After working a short time, he came into the house complaining of a great pain about the heart. Dr. Cona was sent for, and on his arrival saw that there was no hope. His patient was then dying, and lived but a few minutes.

Deceased was a native of Cologne, Prussia, and was fifty-seven years of age. He came to the United States thirty years ago, and had resided on the Comstock for over twenty years. He leaves a wife in this city, but no children. Except his wife, he left no relatives in this country. He was a member of Silver Star Lodge, No. 5, F. & A. M., and also of the Royal Arch Chapter. His funeral will take place tomorrow (Sunday) afternoon at 2 o'clock.

**The Humbert & Stearns Mines.**

Pierre Humbert, Sr., a New York capitalist, whose sons located and improved the Nevada Quicksilver mining property at Steamboat Springs, has been spending a day or two in Reno. He was quite surprised and indignant to learn that the mine had been sold at Sheriff's sale, and relocated under the laws of Nevada. Mr. Humbert has expended over twenty thousand dollars on the property, and had left it in charge of an agent, who, it seems, neglected to look after it. He left for San Francisco this morning, and will investigate the matter further.

**Almost an Accident.**

On returning from a drive last evening, Mrs. G. W. Mapes and children and Mrs. A. H. Barnes fortunately escaped from what might have been a serious accident. Mrs. Mapes has a very fine safe fire machine which Mrs. Barnes was driving, when, in front of Luke's shop, on Sierra street, the mare broke through a poorly covered hole over a water main, causing the animal to fall and nearly roll upon her back, splintering the shaft of the buggy and doing other slight injuries to the buggy and harness. Mrs. Mapes and children were shaken up lively, and Mrs. Barnes drawn by the reins onto the dash and front wheel. None of them were injured, however. A new shaft and a stitch or two in the harness is all that will be required to make everything as good as new.

**Barn Burned.**

We learn from Peter Organ, says the Silver State, that the barn of J. W. Brown, at Coyote Creek, was burned last week, together with 60 or 70 tons of hay. Some hogs and calves that were in the barn at the time, were burned, but a valuable horse, which was in the stable, escaped with some burns, from which he will probably recover. The loss falls heavily on Mr. Brown, who had just stacked the hay, which was of this year's crop.

**The E. of F. Picnic.**

One car load of Reno folks went to Carson today to the K. of P. picnic. Twelve cars came down from Virginia. Conductor Follett says it was the largest and most respectable lot of picnickers that has left the "grand old hole" this season.

**Should Be Punished.**

The writer or writers of those anonymous letters in Carson should be hunted down, and turned over to the tender mercies of those who have been annoyed by the unprincipled blackmailers.

## FAMOUS FOR HEALTH.

Reno's Climate Builds Up and Restores Health and Happiness to the Sick.

Daniel Hutchinson and wife, the parents of Mrs. C. J. Brookins, have been obliged to return to Reno the second time for health. Mrs. Hutchinson was supposed to be dying before they came here the first time, but became quite strong in a short time after arriving here. Last September they went back to Michigan, and both were sick all Winter. They have now returned to stay.

A. W. Hunkel and family of Missouri have been in this vicinity for a few months, in search of health, and were entirely successful. If they lose it again they will know where to find it. They went east this morning.

**Paralyzed.**

Friday morning, says the Enterprise, Cornelius Jones, a Gold Hill miner, who lives in a cabin by himself, was stricken with paralysis along the whole left side. Some passing miners heard him calling for assistance about 2:30 o'clock in the morning, and entering his cabin found him lying helpless on the floor. Jones said he went to bed about 12 o'clock and went to sleep. Presently he rolled out of bed to the floor, when, to his astonishment, he found he could not move. On hearing the miners passing he called for help. He was taken to the County Hospital, and will probably recover in due time.

**Bob Ingersoll on Arthur's Chances for Nomination.**

Colonel Ingersoll says about Arthur: "He will not be nominated. People do not like death to suggest to them their national tickets, or their national tickets to suggest death. He was Vice President—vice which a party never forgives in these days. A Vice President is regarded as children regard a stepmother—a device to save an election—a something to stop a gap—a political raft. He holds the horse until another rider is found."

**A Lecture on Civilization.**

What promises to be a literary treat, will be the lecture of Professor Granville F. Foster, (the new Principal of the Reno Public School), at the Congregational Church next Sunday at 11 o'clock. Reno people will have a rare opportunity to learn something of the man who is to have charge of the education of their children.

**In Memoriam.**

The funeral of the late A. Y. Shepard, of Winnemucca, took place on Thursday last. The remains were followed to the grave by Winnemucca Lodge No. 19, F. & A. M., Nevada Lodge No. 25, I. O. G. T., and Winnemucca Hose Company No. 1. The funeral services were conducted by the Rev. Mr. Currier of the M. E. Church.

**Temperance Lecture.**

Mrs. Maria Ballard Holyoke, formerly a commissioned lecturer for the W.C.T.U., will lecture on Temperance at the Baptist Church, on Sunday and Wednesday evenings July 17th and 19th, at half past seven o'clock. The Methodist Church bell will indicate the time of meeting.

**Buried at Auburn.**

The remains of Mrs. W. H. H. Fellows who was so brutally murdered by Hennessy, at San Francisco, were buried in the Odd Fellows' cemetery at Auburn, Mrs. Fellows, whose maiden name was Hattie Roussin, having been reared at that place.

**Hot Lunch.**

George Becker will set out a hot, well cooked dinner to-morrow at his Granite Saloon. Soup, roast meats with vegetables and other good things will be served from 10 A. M. to 2 P. M. Go and get a good dinner and a glass of his celebrated Pacific beer for one bit.
